

Your business:  
Corrugated Board Industry

# Flexo Folder Gluers • Case Makers

## Your production process

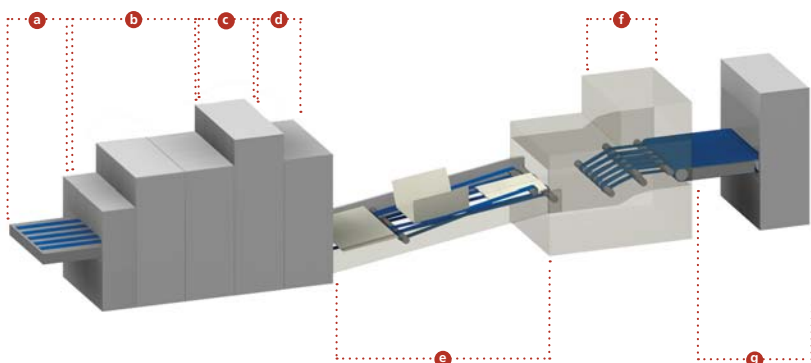

- a** Pre-feeder unit
- b** Printing unit  
Special engineered belts for 4-colour printing units
- c** Slotter Creaser unit
- d** Rotary die cutting unit
- e** Folder

### Transfer cars

- f** Counter collector / eject  
Demands strong and stable belts with abrasion resistant coatings. A high friction covers guarantees smooth feeding of the cardboard boxes through the counter collector and eject section. Anti-static properties can reduce dust accumulation.

- g** Delivery/ Strapping

### Waste conveyor

Your business is our business!

Our business:  
Innovation & Service in Belting

## Flexo Folder Gluers • Case Makers

### Positive feed of blanks and extended service life

#### **Pletex long life covers offer better value for money:**

- Smooth or profiled covers assist the positive positioning of blanks.
- Thermo welded splice provides long service life; no need for mechanical fasteners.
- Secure easy and fast splicing with *QuickSplice* tools, without external assistance.
- Excellent tracking belts to speed up production.
- Wear resistance and permanent grip.

### Continuous undisturbed folding process

#### **ZipLink® innovative 'easy splice' range increases productivity:**

- Seamless, quick and easy joining whilst maintaining 100% of belt strength.
- Reduce equipment wear and operational cost.
- Positive hold and non-marking of blanks.
- Carboxylated Nitrile XNBR and Natural Rubber covers provide excellent wear and grip properties.
- Perfectly suited for vacuum supported and twisted conveyor designs.

**Increase plant productivity and efficiency**  
**Accurate folding, no marking of blanks – less waste, higher production throughput**  
**Extended service life, significant cost savings**  
**Less maintenance, reduced operational costs**

**Just some examples of typical areas of concern in your business. Contact Ammeraal Beltech and find out the best belting solution to improve the efficiency in your production process.**

Ammeraal Beltech offers solutions for the corrugated manufacturing process, the work storage area and converting. Plastic *uni* modular belts for paper reel handling and stack transportation systems, process belts for use on corrugator machines and special process belts for converting.

*Solid advice*  
*For all your belting needs*  
*Local stock & service*
